BS — BACHELOR OF SCIENCE COMPUTER SCIENCE
A 4 YEAR DEGREE COURSE

SPECIALLY DESIGNED FOR BiPC / MPC / MEC

BS - BACHELOR OF SCIENCE IN COMPUTER SCIENCE

BS - Bachelor of Science in Computer Science is first of kind in the country to be offered by a self sponsored independent private sector Institution in India apart from the Central Government Sponsored Institutions such as IISER – Bhopal, IISc – Bangalore, IIT – Bombay.

BS - Bachelor of Science in Computer Science is a 4 Year Course. The course,which is an Inter disciplinary and Multidisciplinary , aims to integrate the conventional bachelors programs into a more holistic science education experience. This course brings together the Computer Science, Mathematics, Statistics, Business Management and Economics with Specializations in Big Data Sciences, Business Data Analytics, Artificial Intelligence, Econometrics, Economics, Liberal Arts and Business Management in accordance with National Education Policy - 2020.

BS - Bachelor of Science in Computer Science shall be for a total period of 4 years spread over 8 semesters.

Advantages of Four Year Course:

BS (Computer Science) with Four year Duration (16 Years Education) will enable or allow the aspiring students an opportunity to pursue MS / MBA in Top Universities Globally.

BS (Computer Science) Enables student to pursue One Year Executive MBA / PGDM in top Business Schools like IIM's, XLRI, MDI, ISB in India and globally.

Institutions offering BS Courses in India apart from Osmania University ...

Which Degree is Better - the BS or B.Tech in Computer Science?

Both the BS and B.Tech in Computer Science prepare students well for graduate work or for professional positions in computing and information technology fields. The primary difference is that the BS program provides a more concentrated approach to computer science combining with economics, mathematics, statistics and business management, while the B.Tech program focuses only on computer science and IT.
